A powerful solution for removing floor wax

Technical Data Bulletin TD-235

1. Product Name

Mr. Eats-It Floor Wax Remover

2. Company

Microbial Restoration Services, LLC
16950 W. Sibelius Ln
Gurnee, IL 60031

3. Product Description

A powerful microbial based solution for removing floor wax.

Key Features:

- Effectively strips wax from VCT, VAT, Ceramic and Porcelain tile, sheet vinyl, linoleum, terrazzo tile, and concrete
- Removes all coats of wax in one application
- Virtually no odor; no harmful fumes
- Non-caustic
- Does not need to be neutralized
- Slipping hazards are greatly reduced
- Does not use hot water to activate
- Complete jobs 75% faster than traditional wax remover
- Able to complete large jobs with just one person
- Safe to use on all surfaces where wax has been applied. Will not damage flooring.

4. Application Instructions

- Read entire label before opening and shake well before using
- Mr. Eats-It Floor Wax Remover is ready to use upon opening
- Wet floor with water using a mop or pump-up sprayer
- Using a pump-up sprayer apply Wax Remover in a back and forth motion, overlapping the previously sprayed area.
- Use floor scrubber with a brush to agitate entire area for 10-15 seconds
- Let product sit on floor for 10-15 minutes after agitation.
- Floors that have 30+ coats of wax may need a second agitation and a longer dwell time.
- When wax is ready to remove use the black floor stripping pad to finish removing the wax
- After wax is removed rinse and vacuum the solution from the floor

5. Storage

- Mr. Eats-It Floor Wax Remover has a 2 year shelf life
- Close container tightly after each use
- Store in original container only
- Store in and use in temperatures between 32 degrees and 120 degrees. Do NOT allow to freeze
