CRB LOW MOISTURE CLEANING MACHINES

All of CRB's cleaning machines are ultra-low-moisture for professional carpet and hard surface/floor cleaning which ensures our line is one of the most environmentally friendly, earth friendly and green one on the market.

Our goal and mission is to produce the best results and happy customers in the carpet and hard surfaces cleaning world, while preserving and sustain our planet.

At CRB Clean, we have various types of CRB (Counter-Rotating-Brush) cleaning machines. One of the most popular carpet and hard floor cleaning models is the TM4, 15-inch unit. CRB Clean manufactures also a larger width 20-inch model which is often preferred by users with larger cleaning areas.

CRB EQUIPMENT USES A ULTRA LOW MOISTURE CLEANING METHOD THAT SIGNIFICANTLY REDUCES THE USE OF PRECIOUS WATER OF UP TO 85-90% COMPARED TO OTHER TRADITIONAL WET CLEANING METHODS, HELPING PRESERVE ONE OF OUR MOST PRECIOUS RESOURCES ON OUR PLANET.

Agitation

Save time using the CRB machine as an agitator/scrubber in the HWE process.

Pile Lifting

Maintain fresh appearance of the carpet using the CRB machine to deeply reach into the carpet perfection.

Low Moisture Encapsulation cleaning

Use CRB's peroxide encapsulation cleaner for maintenance and/or for deep cleaning jobs in conjunction with CRB's dry cleaning compound.

Renovator collection trays

Pick up pet hair, soil and dirt and more with the very same machine. More effective than most commercial vacuum cleaners.

Hard surface

Cleans hard surfaces such as tile, grout, vinyl floor, hard wood, natural stone, bamboo, profiled and rubber floors.

Compound cleaning

Use CRB's peroxide encapsulation cleaner and Abzorb compound to provide a deep extraction cleaning and fast drying time under one hour.

Durable

Use Durable stainless steel/ aluminum body and low maintenance, no wear and tear and non-stop cleaning around the clock.

TANDEM

All our CRB cleaning machines are easy "tandem" capable! This will double your cleaning width; easily double the space to be cleaned and cut time in half on carpet and hard surface cleaning jobs.

It is a perfect option and solution for commercial applications and large cleaning areas.

Model: TM4-C

TM4-C CRB Cleaning Machine is the most sustainable, versatile, and affordable machine available.

Equipped with a durable stainless steel/ aluminum body that supports up to 7 cleaning methods including Encapsulation cleaning, Hard Floor Cleaning, and more! Ideal for home, small offices, shops, facilities with obstructed area.

Technical Data

Weight: 55.89lb
Height: 42.52 in
Width: 15 in
Motor: 750 W - 110V/ 220V
Brush Rotation: 380 rpm
Horse Power: 1HP
Cleaning capacity: Up to 7,500 Sq. Ft./hr.

Model: TM5-C

TM5-C CRB Cleaning Machine is a bigger-width low-moisture machine that has all of the benefits of the TM4-C. Ideal for larger homes, showrooms, open areas, and commercial jobs. The increased width of the machine can speed up the cleaning process and produce great results.

Technical Data

Weight: 61 lb
Height: 42.52 in
Width: 20 in
Motor: 750 W - 110V/ 220V
Brush Rotation: 380 rpm
Horse Power: 1HP
Cleaning capacity: Up to 10,000 Sq. Ft./hr.

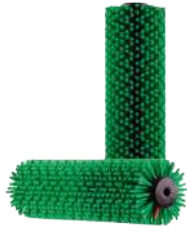

Brushes

Yellow/ Extra Stiff

Severely matted low loop pile carpets commercial only, with wear indicator. Not for regular use. For "one-time" restorative cleans. Best for extremely matted commercial grade low loop pile carpets.

Green/ Stiff

Commercial synthetic loop pile, vinyl, tile and grout with wear indicator. Best for rough and Rigid floor or surface.

Blue/ Standard

Commercial grade level loop. low cut and some tile and grout with wear indicator. Ideal for normal and needle felt carpets.

Gray/ Soft

Residential synthetic fiber cut pile or commercial wool loop pile carpets with diamond sanded tips and wear indicator.

White/ Extra Soft

Soft and delicate natural fibers with wear indicator. Best for soft and delicate carpets.

Spotting

Oxi Pro utilizes pharmaceutical grade Australian Tea Tree Oil and an innovative stabilized hydrogen peroxide to break down organic stains including food, bio, mold/ mildew and pet stains. OxyPro provides incredible results for many uses including: Advanced spotting chemistry that removes bio organic and food spills without wicking back or the need for extraction on standard spots. It can also be used as a pre-scrub product for carpet traffic lanes followed by rinse extraction with **NXT Restore**. It is highly effective for scrub & clean on hard surface floors and ceramic tile with sanitizing qualities for bathrooms and other areas with bio organic soils.

Chemicals

Encapsulation

NXT - The unique low moisture encapsulation cleaner/protector, is for all types of commercial carpet and fabric care. NXT is the "Next" generation encapsulation cleaner that has been built through years of research of encapsulation product performance to identify the key elements required to create the most advanced commercial encapsulation product in the industry. NXT is an incredible cleaner that encapsulates with a very thin layer of molecular water-soluble polymer that dries to a crystalline residue encapsulating everything it touches then it easily fractures under foot traffic or vacuuming for quick removal of the captured soil. This advanced product also provides protection that resists staining and re-soiling for extended appearance retention, easier spot removal, and continual soil release with regular scheduled maintenance. The performance of NXT is unmatched in the industry.

Extraction

A highly effective extraction cleaner with encapsulating properties to eliminate re-soiling. **NXT Restore is a powerful soil removal extraction cleaner** that can be used as a prescrub and for rinse extraction. An advanced technology extraction cleaner specifically formulated to encapsulate soil as it dries, minimize wicking, add stain resistance, and eliminate re-soiling. **NXT Restore** is excellent for use on stain resistant synthetic fibers, wool carpets and fabrics. **NXT Restore** is designed for use with Truckmount and Portable extraction systems.

Premium products in high end quality

We can proudly say our machines and products are helping companies in many industries like: Facility Services, School districts, Franchises, Hotel / Motel, Buildings Contractors, Carpet & Hard Floor Cleaning Companies, Senior Living Facilities, Athletic Facilities, Airlines, Trains, Airports.

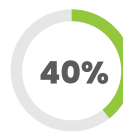

We guarantee efficient carpet and hard surface cleaning solutions to all our customers with our state of the art CRB machinery and chemistry providing our clients with 100% guaranteed satisfaction.
